

Troy Chloromide Spray

Antiseptic Spray

Troy Chloromide Antiseptic Spray

an aid in the treatment of topical infections and bacterial skin disease, wounds, cuts and abrasions

Actions

Antiseptic, insect repellent.

A bitter to acid smell and taste reduce interference by licking by the patient.

Indications

For use on cattle, horses, pigs, sheep and dogs as an aid in the treatment of topical infections and bacterial skin diseases, wounds, cuts and abrasions.

Directions for use

Spray the affected area until it is entirely covered. May be used as regularly as necessary until the treated area has healed. TROY CHLOROMIDE antiseptic spray also repels flies and other biting insects from the wound surface.

Presentation

Pump spray 125mL and 500mL Trigger spray.
