

Ferromax

Iron & Folic Acid Syrup For Racing Greyhounds

BLOOD BUILDING

PALATABLE SOURCE OF IRON AND FOLIC ACID TO MEET THE ELEVATED NUTRITIONAL DEMANDS OF RACING GREYHOUNDS.

KEY INGREDIENTS per L:

Iron (as ferric ammonium citrate) 12.5g & Folic Acid 265mg

Features

- Supplies organic iron as ferric ammonium citrate.
- Supplies concentrated folic acid.
- Maintains optimal iron levels in high performance dogs.
- Suitable for oral administration or daily supplementation to feed.
- Folic acid is important for pregnant bitches to ensure correct foetal development.

Benefits

- Highly bio-available iron and folic acid.
- Maintains optimal red blood cell counts.
- Provides critical elements for haemoglobin production and therefore blood oxygenation.
- Highly palatable liquid.

DIRECTIONS FOR USE:

Administer orally over the tongue or place liquid on dry feed.

DOSAGE RATES:

Give 3mL once daily for the first 6 weeks of training, then 3mL every second day or as recommended by a veterinary surgeon. During recovery from illness, injury or parasitism use 3mL daily.

PACK SIZE(S):

1L, 5L & 20L
