TOPICAL TREATMENTS

TOPICAL ANTI-FUNGAL CREAM FOR HORSES, CAMELS, DOGS & CATS

ACTIVE INGREDIENTS per G:

Econazole Nitrate 10mg

Features

- ❑ Broad spectrum anti-fungal activity against a wide range of yeasts and fungi including *Candidia albicans*, *C. guilliermondi*, *Torulopsis spp.* And the dermatophytes; *Trichophyton rubrum*, *T. mentagrophytes*, *Epidermophyton*, *Malassezia*.
- ❑ Topical anti-fungal agent with rapid action onset.
- ❑ Treats yeast and mould associated ailments.
- ❑ Able to be used for short acting and persistent skin diseases and mixed skin infections, both bacterial and fungal.

Benefits

- ❑ Treats a wide variety of fungal ailments including ring worm (most commonly caused by *Microsporium Gypseum*), girth itch (commonly caused by *Trichophyton Equinum*) and rain scald (commonly caused by *Dermatophilus congolensis*).
- ❑ Treats a wide variety of independent ailments such as dermatitis, saddle rash, greasy heel and mycotic skin infections in Horses, Camels, Dogs and Cats.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Clean dirt and or dried discharge from the area of application with a warm antiseptic solution. Apply Ranvet Fungazol liberally into and around the affected area twice daily for a period of 6-8 weeks. Reduce application as the condition clears.

IMPORTANT NOTE: Fungi are particularly susceptible to sunlight and hot, dry, clean environments. Therefore, providing dry, clean litter and stabling is a large factor in prevention of fungal infection.

SAFETY DIRECTIONS:

May irritate the eyes and skin. Wear gloves and wash hands after use.

PACK SIZE:

100g tube
