

# Sprint Oil

## High Energy, Essential Fatty Acid Supplement for Greyhounds

### ENERGY

**HIGH ENERGY BLEND OF ESSENTIAL OMEGA 3 & OMEGA 6 FATTY ACIDS, SPECIFICALLY BALANCED FOR HIGH PERFORMANCE GREYHOUNDS**

#### KEY INGREDIENTS per L:

Omega 3 (Linolenic Acid) & Omega 6 (Linoleic Acid)

### Features

- Provides sufficient energy for hard work where the use of fats spares glycogen stored in muscle tissue so that it is available for intense anaerobic work.
- Spares glycogen use, reducing the formation of lactic acid, thereby extending endurance and stamina, and delaying muscle fatigue.
- Highly Palatable.

### Benefits

- Reduces the volume of feed required and significantly improves the available energy for hard working greyhounds.
- Omega 3 & 6 fatty acids provide an anti-inflammatory function and maintains excellent skin and coat condition.
- Limits the heat of digestion, particularly important in warmer climates.

#### DIRECTIONS FOR USE/CONTRAINDICATIONS:

Add Sprint Oil to the evening feed daily. Introduce Sprint Oil to the diet gradually over 5-7 days. Sprint oil may be used to replace all other oils and fats in the diet of racing greyhounds.

#### DOSAGE RATES:

1-2 tablespoons (20-40mL) daily. Increased amounts may be administered to greyhounds receiving lean meat diets and during hot weather. Regularly monitor each dog's bodyweight and adjust the dose of Sprint Oil to suit each animal's individual requirements.

#### PACK SIZE(S):

1L, 5L & 20L
