

Troy Behave Paste

Actions

Supplementary source of vitamins, minerals and amino acids for horses. Contains L-Tryptophan & B-group vitamins.

Indications

This product is registered as a complementary animal health product. It contains tryptophan and vitamin B1 which may assist in calming nervous or excitable horses. Behavioural issues may respond from vitamin supplementation.

Directions for use

Adult horse (500-600kg) 20-24ml.

May be administered daily, preferably within four hours of exercise or travel, or as directed by a veterinary surgeon. To administer, place the nozzle into the side of the mouth and deposit paste as far back over the tongue as possible.

Presentation

250ml flip top tube.

Composition

Each 1mL contains

L-Tryptophan 333mg, Thiamine HCl (Vitamin B1) 25mg, Riboflavin (Vitamin B2) 18mg, Nicotinamide (Vitamin B3) 50mg, Pyridoxine HCl (Vitamin B6) 10mg, Sodium ascorbate (Vitamin C) 100mg, Folic Acid 15mg, D-Panthenol 10mg.
